DETAILED ACTION

1. Claims 1-4 have been examined.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-4 are rejected under 35 U.S.C. 102(a) as being anticipated by Cardoso et al. "XPP-VC: A C Compiler with Temporal Partitioning for the PACT-XPP Architecture" (hereinafter Cardoso).

4. As per claim 1, Cardoso teaches the invention as claimed, including a method for partitioning large computer programs and or algorithms at least part of which is to be executed by an array of reconfigurable units such as Arithmetic Logic Units (ALUS) (see page 865, Fig 1, paragraph 3, 4, page 866, paragraph 3, page 867, Fig 2), comprising the steps of
defining a maximum allowable size to be mapped onto the array (see page 867, Fig 2b, page 869, paragraphs 3, 4, page 870, paragraph 2; EN: maxSize is the maximum allowable size),
partitioning the program such that its separate parts minimize the overall execution time and providing a mapping onto the array not exceeding the maximum allowable size (i.e., determine the set of feasible temporal partitions which results in the fastest overall program execution, see page 867, Fig 2b, page 869, paragraphs 3, 4, page 870, paragraph 2).

5. As per claims 2 and 3, the limitations recited in these claims are substantially similar to those recited in claim 1. Therefore, they are rejected using the same reasons as claim 1.

6. As per claim 4, Cardoso teaches the reconfigurable processing units are arithmetic logic units (see page 865, Fig 1, paragraph 3, 4, page 866, paragraph 3).

Response to Arguments

7. Rejection of claims under §102(b):

8. As per independent claims 1, 2, and 3, Applicants' arguments have been fully considered but are moot in light of the new grounds of rejection.

Conclusion

9. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 4/3/2008 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
